Stromsburg, NE 68666

#### *PremiumPro is:*

- A nutrient dense supplement used in the manufacture of complete feeds and foods for livestock, aquaculture and pets.
- A premium protein source with digestibility values equal or exceeding those of more expensive products (e.g. blood plasma, blood meal and fish meal).
- A dry supplement rich with energy density.
- An ingredient with optimal biological purity and chemical stability.
- A highly palatable protein ingredient fostering enhanced intake.
- A dry free-flowing ingredient.
- Made in the USA under USDA inspection.

#### *PremiumPro provides:*

- Safety - USDA inspected
- Consistency - Closed Formula
- Savings/Availability - Mfg. in Central USA
- Superior Palatability (MCL0911)
- Superior Performance (MVS8020, MVS9021 and MCL13037-1)
- Profits - Low Cost & High Performance

#### *Packaging:*

- Bags: 50 lb & 1-Ton Bulk Totes
- Bulk

#### *PremiumPro contains:*

- Highly palatable predigested protein derived from hydrolyzed fresh avian tissue.
- Separated egg albumen, a source of protein with one of the highest biological values.
- A high fat level providing significant energy density.
- Excellent source of Glutamine for optimal growth and wellness of recently weaned pigs.

#### *PremiumPro ... General Feeding Directions:*

- PremiumPro may replace all or part of other premium protein ingredients (i.e. blood plasma, blood meal and/or fish meal) commonly used in complete swine nursery feeds.
- Typical dietary inclusion rate of PremiumPro is from **2.0% to 15%** depending upon nursery phase, with higher levels when circumstances warrant.
- PremiumPro may be used in all phases nursery feeding.
- PremiumPro may be used in sow lactation rations when protein digestibility, palatability and energy density of the diet are critical
